

Event Idea:

Tech Fusion Challenge: Where Innovation Meets Fun

Vision:

The event aims to amalgamate diverse technical competitions into a comprehensive challenge fostering collaboration, innovation, and problem-solving among participants. TechFusion offers a platform to explore, learn, and apply cutting-edge technology in a competitive yet collaborative environment.

Venue:

A spacious venue with distinct sections allocated for various competitions:

- Coding Competition Arena
- Hackathon Workspace
- Treasure Hunt Stations
- Workshop Rooms
- Presentation Halls for final pitches

Budget:

As venue is in campus so we can use our budget over other things like -

- Prize pool for winners.
- Equipment and tech tools needed for competitions.
- Refreshments and snacks for participants.
- Promotional materials to spread the word about the event.
- Miscellaneous expenses such as security or any additional requirements that might come up.

People needed:

- Event Organizers and Coordinators
- Technical Support Teams for each competition segment
- Judges and Mentors for guidance and evaluation
- Volunteers(from juniors) as they know very well about the interest of their batchmates.

Publicity:

- Extensive use of social media platforms(whatsapp groups), tech forums, and university networks to spread event awareness.
- Ask volunteers from juniors to spread the awareness about the event .

Event Execution:

Pre-event Preparation:

Online registrations with detailed event information and guidelines.

Day 1:

- TechFusion Kick-off
- Registration and Welcome Address.
- Launching simultaneous competitions: Coding Challenges, Hackathon, and Initial Treasure Hunt Clues.
